

RECCOMANDATION

MG Pomorze as subcontractor for Leirvik Module Technology have from July – 03 to end December – 03 performed structural fabrication of Living Quarters and Helideck Modules for Dibi Fields , Nigeria.

The work include production of structural shop drawings , prefabrication and assembly/installation of Building and Helideck complete with Windows and Doors.

MG Pomorze have in all level trough fabrication shown a very positive attitude to solve problems and have performed the work within required standard and quality.

They also comply with Clients high requirements for safety awareness in Health , Safety and Environment matters with no reported accident in the whole project period.

Despite of very tight schedule and difficult weather condition MG Pomorze was able to complete the scope and delivered the Module finalized on Barge on time.

I herby congratulate MG Pomorze with this successful contract and wish them the same for any new future projects.
